# SIGHTINGS --- LANDINGS

Fort Worth, Texas., Oct. 26, 1957

Enclosed is my personal check in the amount of \$5.50 to cover the cost of three books which you have listed.

White Sands Incident by Fry

Aboard A Flying Saucer, Bethrum \$3.00

My Trip to Mars, The Moon and Venus, Nelson \$1.00

Incidentally a few weeks ago I was priveleged to see a beautiful round bluish and white rimed light go across the sky just as I came out of our church after attending choir practice. It was visible for only a short time. It was traveling from southwest to northeast and was visible only about one or two seconds and blinked out. It was traveling very fast. It was one of the most beautiful lights I have evrr seen.

Henry A. Blanton

Thank you for this sighting Brother Blanton.

## CAUTION FLYING SAUCERS LANDING ON HIGHWAYS

A highway sign with the above lettering was posted in Lubbock, Texas by a traffic official after reported sightings of a flying object. A young school girl is shown with the sign. It was distributed by Associated Press from coast to coast.

## T O O   M A N Y   C O O K S

*The old story* that too many cooks spoil the broth still holds true to this day. That has been our main difficulty in getting our satellite up in the sky.

President Ike has appointed a missiles czar Dr. James R. Killan, president of the Mass. Institute of Technology. He will be aided by a staff of scientists and a strong advisory group of outstanding experts..... Let us hope and trust this fellow will get the ball rolling and get some action instead of theories.....Ed note.

---

## N O V E L T Y

A F R E E flying saucer is now being offered with the purchase of Scotch cellophane tape. Yes, it flies !! Insist upon a new tape and you will get it. Distributed by R. H. Macy, New York City

---

Washington, Nov. 7    President Eisenhower announced tonight that the U. S. had successfully launched an experimental missile into outer space and brought it back "completely intact"

## 1 0 6 F O R   T R I P   T O   M O O N

Philadelphia, Pa. Oct. 26 --- Beryl Lush, an export-import executive offered \$10,000 to any person in our world who makes a trip to the moon. The winner must return to collect the money. Trip must be made before 1959.

**MY FLIGHT TO VENUS**

by Dana Howard

Price \$1.25

Dana Howard is terrific. She has written a good story. it is so good that we have sold as many as fifty in one day in our little book shop which is really way off the beaten path. Besides writing, Mrs. Howard also paints and in this sense we mean an artist. We have an original by Mrs. Howard on a screen. It is good! Come and see it, a real flying saucer in color. See it at our book shop.

## S P U T N I K

by

Ruth B. La Vigne

"Sputnik " is a name that's catching on these days,  
 Like saucers catch our interest in their displays.  
 It amuses me no end when I have to hear someone say,  
 There goes " Sputnik " it went that- a- way !

Before " Sputnik " came to pass clouds N' jers N' things  
 eere U F O whizzing by on the wing.  
 Now the saucers ( the authentic ones I mean,  
 Don't stand a chance for sputniks on the beam !!

It is said more than its true ----  
 That a Russian Moon should do,  
 What intelligences have strived to do for years.  
 For Sputnik has our eyes turned to the skies,  
 Now more than ever sightings will appear.  
 People will say that saucers are true,  
 And not just an illusion in the blue.

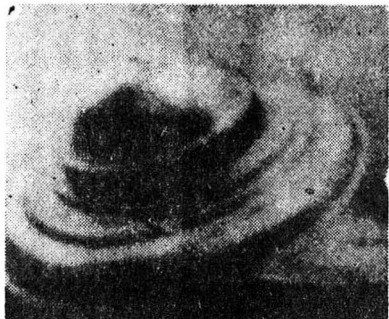

End.

Miss La Vigne will have her book out sometime either in  
 December or January of next year.

\*\*\*\*\*

V I S I T O R S this means Y O U ! ! !

Now on sale again We have all kinds of magazines such as the  
 Psychic Observer, now running articles on the saucers, also  
 Chimes magazine, Self Realization a Yoga magazine, The  
 Awakener a Bhi publication and others. Pamphlets and other  
 items of interest such as INCENSE, Zodiacal Oils and cards  
 for fortune telling Sold as novelties only. !

FLYING SAUCERS FROM MARS,  
just published by the British  
Book Centre includes these  
two photographs of Flying  
Saucers actually on the  
ground. Author Cedric  
Allingham estimated the  
total diameter at about 50  
feet, and the height at  
about 20 feet. The portholes  
and landing gear are clearly  
shown.

## MAN AND THE FLYING SAUCERS (continued)

BY

Al Harrison

The odds are that if a flying saucer were to appear in your neighborhood, certain of your neighbors would be quite blind to it, would not be able to see it at all, or would see it only as a cloud or some other thing which they think they understand already ---- because of the unconscious fears which would be aroused and brought out to the surface by such knowledge as the sight of the stranger. This would be the form of hysteria, very similar to the classical fear or form of hysteria Freud explained so well, for the first time in history.

The general attitude of fear of the unknown also shows itself in the movies. Go to one of the new science-fiction movies, and you will see it taken for granted that of course we will have to fight war to the last man against whatever life there may be on other planets. How can we assume that any other form of life would wish to do such a thing? If you will look about you, at the people who ridicule the idea of flying saucers, you will find that these same people are also uneasy, or hostile about quite a number of other things and ideas as well. Unconscious fears express themselves in many ways, against whatever their victim happens not to understand well.

Continued in next issue.
